HOW YOUR PAPER IS JUDGED

Each paper is reviewed on six criteria, scored 1 to 5 and converted to the marks below. A plagiarism check is also recorded.

No.	Criterion	What the reviewer checks	Marks
1	**Originality and Novelty**	New idea, method or finding, clearly different from existing work	20
2	**Technical Quality**	Correct, clear method; sound and reproducible experiments	20
3	**Relevance and Significance**	Important problem; impact clearly explained	15
4	**Clarity and Presentation**	Well organised; figures, tables, equations labelled	15
5	**Literature and References**	IEEE citations; recent, relevant, complete references	15
6	**Conclusions and Future Work**	Findings summarised; future directions mentioned	15
	TOTAL		**100**
